

School Partnerships

Academic enrichment, teacher development and
future-readiness programmes for schools and colleges.

*We don't simply prepare students for exams - we prepare them for
the decisions they'll make beyond the classroom.*

Helping schools improve academic outcomes, student confidence and future readiness.

Digging Deeper Insight Ltd is a UK education company delivering evidence-based enrichment to schools and colleges. Our team brings together subject specialists and practitioners from the Civil Service, IBM and academic research.

WHY SCHOOLS PARTNER WITH US

01 Practitioner-led expertise

Sessions are delivered by experienced economists, educators and researchers rather than agency tutors. You meet the people who will teach.

02 Evidence-based learning

Every programme combines academic research with practical learning strategies and measurable outcomes.

03 Multilingual engagement

Support in English, Urdu, Hindi and Gujarati, helping schools strengthen communication with diverse student and parent communities.

OUR APPROACH

- **Evidence-based** Grounded in research on how students actually learn.
- **Curriculum-aligned** Mapped to your exam boards and schemes of work.
- **Safeguarding-first** Policies and checks in place before delivery begins.
- **Interactive delivery** Active participation, not lecture-style sessions.
- **Practical application** Students leave with something they can use.

Programmes

Delivered on-site, online or blended, and scoped to your cohort, calendar and budget.

STUDENT PROGRAMMES

Revision Days

Intensive, exam-board-aligned sessions in Maths, English, Physics, Economics and Psychology. GCSE and A-Level.

Subject Masterclasses

Specialist-led sessions pitched above syllabus to stretch and challenge high-attaining students.

Future Ready

The skills schools rarely have time to teach: career planning, decision-making, communication, critical thinking, financial literacy, university preparation and professional confidence.

Careers & University Preparation

Personal statements, application strategy, interview practice and post-18 decision support.

STAFF DEVELOPMENT

Teacher CPD

Exam technique, model-answer construction and stretch-and-challenge strategies for departmental teams.

AI in Education

Practical classroom use, marking workflows, academic integrity and safeguarding considerations.

WHAT YOU RECEIVE

- Student action plans
- Mock assessment reports
- Attendance summaries
- Teacher feedback
- Parent resources
- Impact reports

Available as one-off workshops, enrichment days, termly programmes or annual partnerships.

Working together

HOW IT WORKS

- 01 Discovery call**
Thirty minutes to understand your cohort, priorities and calendar.
 - 02 Tailored proposal**
Scoped to your budget, term dates and desired outcomes.
 - 03 Delivery**
On-site, online or blended, led by our own specialists.
 - 04 Impact report**
Attendance, engagement and outcome data after each programme.
-

INVESTMENT

Revision day or masterclass	£600 – 900
Teacher CPD, half-day	£750 – 1,000
Termly programme	£2,000 – 4,000
Annual partnership	£6,000 – 10,000

Indicative ranges. All programmes are scoped and confirmed at proposal stage.

COMPLIANCE

Enhanced DBS certification, safeguarding documentation and public liability insurance will be provided for all staff involved in school delivery.
